

20 - This weeks topic is important for teamwork because a big part of teamwork is the direction it is taking and that is managed by a leader of some sort. Learning to lead the correct way, with love, vision and by example can make the difference between effective in ineffective teamwork. Being able to work with your team and leading them at the same time is something that will help you far in a professional world.

20 - Relating this to the gospel. One of the most important gospel principals of all time is leading by example. "what manner of men ought ye to be? Verily I say unto you, even as I am.". This scripture tells good members of the church to follow Heavenly Fathers footsteps to be the best version of themselves that they can be. One step further is leading members by example, as other members and non-members will follow a positive example when it is set before them. If you are being righteous and faithful your friends will be influenced positively. That is why leading by example spiritually is so important.

20 - I can relate to this topic with an experience myself. As a child I wasn't very interested in the church as a whole but my older brother became very invested in it at a certain point. I looked up to him so when I saw him start to care a lot more about the church it directly influenced me to start caring more about it as well. We both grew in faith a lot around that time and it was a valuable teaching experience.

10 - A smart goal I have for next week is to relax and play a game on my PS4 next wednesday night.

10 - Something I will do differently next week is that I will not show up late to class.

5 - I completed the planning phase for my project

5 - This weeks topic is important because good leadership skills are an incredibly valuable asset to have when working with teams constantly.

10 - The most significant thing I can take away from the topic this week is that deep down I would feel extremely inadequate leading a team of people at the current moment and I need to change my mindset and work ethic so that I wont have that problem in the future.
