

20 - This weeks topic is important to teamwork because pressure is what forces people to do things in a timely manner. Without pressure in the workplace tasks that could be completed in a day or two could take up to a month to complete if everyone worked as slow as they wanted to. A healthy amount of pressure is necessary for completing things in a timely manner.

20 - This could easily directly be related to the gospel. Without the pressure of our eternal judgment people would have no reason to be good people, go to church, follow christ, etc. So with the added pressure of our judgment after death, it helps us choose christ over nothing.

20 - I taught one of my roomates about what a mind map is and they had never really heard of it before. I showed them mine and explained it more as a way to get ideas and concepts to freely flow from one idea to the other. My friend liked the idea and said he might use it in the future.

10 - A smart goal for next week is that I want to show up to each class 5 minutes before it starts.

10 - Next week something I want to do differently is that, I want to show up to all of my classes because I did not do that this week.

20 - I plan on contributing to my team by sharing more of myself with them. Im making more effort to reach out to them and get to know them better, and I want to share myself and my interests with them so that we can be closer and be able to get to know each other better than we do right now. I make music and I want to share that with who I can.
